Trade-marks Journal

Vol. 65 No. 3336

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 06

(1) common metals and their alloys; non-electric heating cables and wiring cables of common metal; Goods of common metal, namely valves for water pipes, valves for drainage pipes, valves for gas, oil and steam generating machinery, pipe junctions, pipe fittings and flanges of metal; Goods of common metal, namely metal tanks and connectors therefore and tube and pipe hangers; valves, valve fittings, and parts and accessories therefor, namely metal valves, metal valve fittings and parts therefor, electrically-operated valves for industrial machinery and valve fittings therefor; metal valve fittings, namely gates, globes, checks, butterfly valves and balls made of cast iron, bronze, forge steel, cast steel or stainless steel; metal pipe products and accessories therefor, namely, metal pipes, pipe joints, pipe fittings, pipe linings; metal couplings for pipes; metal actuators for opening and closing valves; fixed and movable mounting devices and mounting aids of metal for valves and meters, namely mounting plates, swing frames, shelves, and brackets; metal enclosures made of metal, namely enclosures for electrical and electronic equipment for controlling robotics, automation networks, business networks, WiFi networks, broadcasting, water treatment, mining processes, lighting, telephones, drill rigs, gas analyzers, grain elevators, mobile telecommunication networks, power distribution systems, meat processing systems, food packaging systems, outdoor irrigation, materials handling systems and ship loading systems; metal enclosures for electrical and electronic equipment, namely computer servers, electrical switchgears, electrical junctions, electrical controllers, HVAC controllers, heat trace controllers, data network cables, compressor controls, oil and LNG pump drives and machine tools; metal building materials, namely metal framing, sheet metal, and flashing; clamps and brackets made of

metal, namely pipe clamps, mounting brackets, clamps for tubes, pipes and hoses; steam traps made of metal; prefabricated metal buildings, namely, metal life guard stations; manually-operated valves made of metal for use in irrigation systems, marine sewage disposal systems, and solar hot water heating units; metal equipment and accessories for swimming pools, namely, diving towers and diving stands, starting platforms, underwater windows, pool ladders, grab rails, custom rails, fixed lifeguard chairs, drains, poles, strainers, anchor sockets, flanges, main drains, scum gutter drains, vacuum fittings, inlet fittings, fill spouts, valve manifolds, underdrains, and skimmers;

Class 07

(2) actuators, namely valve actuators, fluid actuators for valves and automatic valves; actuator attachments for valves, namely actuator positioners; actuator controls, namely electronic and hydraulic actuator control systems comprised of electric actuators, hydraulic actuators and pneumatic actuators; dust and particle collection equipment, namely dust collector for industrial use; compressors, namely, air compressors, gas compressors, compressors for machines, and compressors for refrigeration and air conditioning apparatus; electric motors for machines, pumps, and valves; windmills; manifolds, namely distribution manifolds for plumbing and heating systems and manifolds of metal for pipelines; pump impellers; Pumps, namely, jet pumps, submersible pumps, grinder pumps, reciprocating pumps, sub-mersible non-clog sewage and wastewater pumps, centrifugal pumps, sump pumps, effluent pumps, high pressure industrial reciprocating pumps, fire pumps, irrigation pumps, hydraulic pumps, vacuum pumps, positive displacement pumps, sewage pumps, piston pumps for use in swimming pools and spas, roller pumps for use in creating or booting dynamic fluid pressure, diaphragm pumps, flexible impeller pumps, gear pumps, and spray pumps for use in agriculture, aquaculture, and irrigation; suction pumps; windmill pumps; pumps for use with swimming pools, spas, hot tubs, water parks, and ponds, namely, centrifugal pumps, variable frequency drive pumps, and turbine pumps; pumps, heaters, pipes, pipe fittings, and nozzles for use in swimming pool water circulation systems; pool and spa vacuum cleaners, namely above-ground pool vacuum cleaners and automatic cleaning machines, automatic vacuum cleaners, robotic vacuum cleaners, suction pool cleaners, vacuum suction cleaners, multifunction vacuum/skimmer attachments, and parts for all of the foregoing; vacuum heads for cleaning swimming pools; electric pumps for pressure side cleaners and water boosting applications for swimming pools, spas, water parks, ponds, and fountains; propulsive device, namely, a hydraulically-operated mechanism adapted for attachment to an automatic swimming pool cleaner to periodically reverse the direction of cleaner movement; power-operated lifts for use in assisting handicapped persons with entry into swimming pools; hydraulically operated chlorine /bromine feeders for use in swimming pools; feeders for use in swimming pools; water pumps for use with ponds, natural and man-made lakes, rivers, streams, waterfalls, water fountains, water gardens, and other water features; water pumps for use with fish hatcheries, hydroponics, and aquariums; water pumps for use in aquaculture; water pumps for aeration equipment; water pumps for irrigation;

Class 09

(3) environmental sensors and detectors for use in detecting heat, temperature, and leaks; monitoring and control apparatus and instruments for use in the control and monitoring of heat trace circuits and systems, namely, alarm modules, electronic temperature controls, electronic thermostats, hand-held programmers, mechanical thermostats, power distribution panels, and temperature sensors; electrical cables; electromechanical cables; electric and electronic control panels; electric connections for networks for data transmission and telecommunication, namely electric connectors and connector boxes for electrical and fiber optic networks for data transmission and telecommunication; junction boxes; circuit breakers; electrical and electronic valves and valve fittings for controlling fluids and parts therefor; meters, namely volt and electrical

meters and water meters; electronic measuring, monitoring, detection, indication, regulation and analyzing equipment, namely, fluid and liquid flow meters; fluid and liquid flow meters; laboratory equipment for measuring and evaluating water quality, namely electronic water quality analyzer; water quality analyzers; liquid level and liquid depth sensors; heat tracing and regulating apparatus, namely heat tracing cables and heat tracing units for use in preventing freezing and regulating temperature of pipelines; thermometers; thermostats; conduits for electric cables and parts and fittings therefor; cathodic anti-corrosion apparatus, namely alloy anodes for the cathodic protection of pipelines; electronic snow melting cables; wireless telemetry devices for use with environmental sensors and detectors used in detecting heat, temperature, and leaks; leak detection and locating apparatus comprised primarily of a computerized monitoring and control panel, moisture sensors, temperature sensors, and liquid-level sensors for use with fuel, liquid, water, and chemicals; liquid level gauges; downloadable software in the field of energy cost analysis, configuration, and monitoring of heat management systems and environmental monitoring and data analysis; electrical components for connector systems, namely electrical connector switches, electrical contacts, electrical sockets, electrical plugs and electrical connectors for use in circuit boards; heat shrinkable tubing for covering wires and cables; circuit protection devices,namely disconnects, over load relays, contact switches, and circuit breakers; metalized particle interconnects for use in making electrical connections between printed circuit boards and integrated circuit chips; wire and cable systems, namely electrical wire and cable; sensors, namely liquid level sensors, pollutant sensors, pressure sensors, temperature sensors, thermal sensors; harnessing products, namely non-metallic wire and cable harnessing and harness design software; labeling products, namely wire and cable markers and sleeves, labels, tabs and binder strips; battery packs for lighting, personal security alarms, and industrial machinery; electrical terminal blocks and switches; electricity conduits; underwater electrical power cables and standard connectors; interconnection devices, namely, electrical terminal boxes and splices for electrical transmission lines; connectors, namely cable connectors, electrical connectors for junction boxes and power converters, electrical power connectors; electrical terminals and connections, namely crimp terminals, uninsulated and insulated terminals; control panels and monitors for fire alarm detection, fire extinguishing, and fire suppression systems; fire alarms; fire extinguishers; fire sprinklers; fire hose nozzles; automatic valves, automatic valve fittings, and parts therefor; electric actuators for machines; automatic sprinkler systems and parts therefor, all for fire protection; alarm valves for fire protection sprinkler systems; electrical fusible links, namely, heat detecting devices in fire protection systems and fire department connections, namely, connectors to fire protection systems from which additional water can be pumped; water motor alarms for use in fire sprinkler systems; electronic pool and spa control systems for use in controlling the heating, lighting, filtration, pumping, and chlorination processes in swimming pools and spas; pool and spa controls for programming the timing and duration of heating, lighting, and pumping cycles; remote control units and wireless remote control units for controlling operations of pools and spas; electrical control units for controlling the operation of pool and spa lights, heaters, cleaners, and pumps; electronic communications panel for controlling the heating, lighting, and cleaning operations of pools, spas, water parks, and fountain pumps; touch panel interface for pool and spa control systems and home automation; touch panel interface and protocol adapter for pool and spa control systems and home automation; electronic controllers for use with solar heating systems for swimming pools and spas; fiber-optic cable; electrical controllers for landscape lighting; programmable controllers for automating, monitoring, and controlling the dosage and dispersion of water treatment chemicals into swimming pools, spas, hot tubs, water parks, and ponds; electrolytic chlorinators comprising a power supply, electrolytic cell and flow and salinity sensor for swimming pools and spas; electric motor control units for swimming pools, spas, water parks, and fountain pumps; electronic valve actuators; thermometers; water pressure gauges; chlorine dispensers; metered floating chlorine dispensers; floating chlorine dispensers; electronic controllers for monitoring the functions of ponds, natural and man-made lakes, rivers, streams, waterfalls, water fountains, water gardens, and other water features; electronic controllers for monitoring the functions of fish hatcheries, hydroponics, aquaculture, and aquariums; electronic controllers for monitoring the functions of aeration equipment; electronic controllers for monitoring the functions of irrigation equipment;

Class 11

(4) apparatus for heating, drying, water supply and sanitary purposes, namely, water supply pumps; water filtering machines for use in residential, commercial, and industrial settings; water purifiers; Water distribution systems comprising non-metal tubing and tubing couplings, namely, fittings, manifolds, and valves for joining and terminating the tubing, and insulation tools therefor, sold as a unit; water softening machines; electric heaters for pipes, vessels, tanks, and architectural surfaces; agricultural irrigation units; pressure water tanks and parts therefor; air purifying units and air filtering units for removing dust, smoke and allergens from the air; heating elements for use in de-icing, snow melting, heating water in residential, commercial, and industrial settings and in water supply installations, pipe freeze protection, and tank heating; electric heating cable systems for use in heating water, surfaces, roofs, gutters, floors, pipes, and tanks in industrial, commercial, and residential applications; heating mats, pads, and sheets for use in heating water, surfaces, roofs, gutters, floors, pipes, and tanks in industrial, commercial, and residential applications; commercial electric immersion heaters for liquids; heating filaments; sprinkler heads; plumbing fittings, namely, dry pipe valves and accessories, namely accelerators; air maintenance devices, namely, devices used to maintain proper air pressure in sprinkler systems; plumbing fittings, namely post indicator valves to open or close a valve or to indicate the position of a valve; apparatus for heating, drying, water supply and sanitary purposes, namely, water supply pumps; fire hydrants; underwater pool and spa lights and lighting fixtures; interior lights for swimming pools; above-ground pool lights; niches for swimming pool and spa lighting; landscape lighting; landscape lighting installations and fixtures; fiber optic lighting fixtures; light sources for fiber optic cables, namely fibre optic illuminators; water filters for swimming pools, spas, hot tubs, ponds, and water parks; filtration units comprised of a filter and module for use with swimming pools and spas; pool and spa cartridge water filters; replacement filter cartridges for swimming pools and spas; filter laterals with porous body for replacement cartridges and upgrade kits for use with swimming pools and spas; in-line filters for use with swimming pools and spas; aquarium and pond filters; swimming pool water cleaning and filtering units; sand filters for use with swimming pools, water parks, aquariums, and industrial water treatment applications; diatomaceous earth water filters for use with swimming pools and spas; water purifiers for sewage; automatic and front-access skimmers for use in removing foreign particles from swimming pool water; inlet, outlet, and directional fittings for use with swimming pools and spas; drain rings, grates, and cup anchors for use with swimming pools and spas; ultraviolet sterilizers for ponds and aquaculture; above-ground swimming pool skimmers; side-wall pool skimmers; ozone water purification unit for use in the purification and sanitizing of water in swimming pools, spas, fountains, agriculture systems, aquaculture, cooling towers, drinking water systems, theme park displays and aquariums; automatic chlorine generators for swimming pools, spas and water parks; heat pumps to heat water in swimming pools and spas; gas heaters and boilers for pools, spas, theme parks, and water parks; pool and spa water heaters; valves for use with swimming pools, spas, hot tubs, ponds, and water parks; water flow control valves for use in industries and applications where control of high volume flow of water is needed; decorative waterfalls for swimming pools, spas, fountains, and ponds; ornamental and decorative water fountains; laminar water jet with deck box for use with pools, spas, ponds, and water fountains; automatic watering

installations, namely sprinklers; clamping assemblies comprised of rings, clamps, knobs and thread connectors used for spa and pool filtration tanks; drain covers, frames, and grates for pools, spas, ponds, and water parks; automatic water systems for swimming pool and spa use, each sold as a unit, comprising pump, motor, tank and parts therefor; filters, heaters, and air blowers, sold in combination, for use in heated pool spas; water return fittings for pools and spas; apparatus and dripper irrigation system for water treatment which is comprised of filters, pumps, regulators, and heaters sold in combination for use on swimming pools, waterparks, aquariums, zoos containing water areas and aquaculture; filters for use with ponds, natural and man-made lakes, rivers, streams, waterfalls, water fountains, water gardens, and other water features; filters for use with fish hatcheries, hydroponics, and aquariums; filters for use in aquaculture; filters for use in aeration equipment; filters for use in irrigation systems;

Class 17

(5) adhesive tape for securing non-electric heated cables to metal pipes; insulation materials, namely pipe insulation; heat shrinkable tubing for use as fuel lines and electrical line insulation; electronic machine parts and their fittings, namely, heat shrink tubing; valves, valve fittings, and parts and accessories therefor, namely non-metallic valves, non-metallic valve fittings and parts therefor, non-metallic electrically-operated valves for industrial machinery and valve fittings therefor; non-metallic valve fittings, namely gates, globes, checks, butterfly valves and balls; mounting brackets for valves, meters, made of rubber; non-metallic seals for swimming pool cleaners;

SERVICES

Class 35

(1) inventory control services, namely, evaluating and improving processes for developing and manufacturing valves, temperature sensing equipment, heat tracing equipment, heat management equipment, pipelines, fluid and gas leak detection equipment, and water and waste water systems;

Class 36

(2) financing services and financial asset management, all relating to plant, equipment, and machinery;

Class 37

(3) construction, repair, installation, maintenance, inspection, assessment diagnostic and integration services, all relating to water and waste water systems, pipelines, electronic monitoring equipment and apparatus, temperature sensing, heat tracing and heat management systems, snow melting and de-icing systems; pipeline tapping services; installation and maintenance of commercial and residential electronic security systems; installation and maintenance of fire protection systems;

Class 40

(4) waste water treatment services; water treatment services;

Class 41

(5) training in the fields of valves, temperature sensing, heat tracing, heat management, pipelines, fluid and gas leak detection, and water and waste water systems;

Class 42

(6) engineering consulting services, namely technical consulting services in the fields of mechanical engineering, industrial process engineering, instrumentation and controls engineering; design, maintenance, support, calibration and monitoring services relating to systems for heating

and cooling, sealing and corrosion protection systems; engineering services, namely, technical project planning and system and process design services in the field of water supply, drinking water treatment, rainwater facilities, water systems, and hydraulic equipment; system and process design services relating to water supply, drinking water treatment, rainwater facilities, water systems, and hydraulic equipment; calibration and testing services relating to systems for heating, cooling, and sealing and corrosion protection; software as a service in the fields of heating cooling, sealing and corrosion protection, and water system design; inspection of fire protection systems; environmental consulting services in the nature of investigations, feasibility studies, facilities planning, final design and construction services; fluid and gas leak detection services; gas and particulate emissions monitoring services;

(7) consulting in the fields of valves, heat management, pipelines, fluid and gas leak detection, and water and waste water systems; consulting in the field of temperature sensing heat tracing, namely inspection, evaluation, diagnosis, and trouble-shooting of temperature control systems, monitoring systems, and heat tracing cable installations and equipment;

Class 45

(8) monitoring of commercial and residential electronic security systems; central station burglar and fire alarm services, namely monitoring signals from the subscriber and dispatching instructions;

Colour Claim

Colour is claimed as a feature of the trade-mark. The colour(s) light yellow, yellow, orange, beige, brown, white, green, light green, blue, light blue, dark blue, silver and black is/are claimed as a feature of the mark. The mark consists of the colour yellow applied to the cap for the container for the goods. Beneath the cap is the word 'Coppertone' in dark blue lettering and it is presented on a white background. Above the word 'Coppertone' is a little girl outlined in black. Her skin is beige, her hair is yellow, she is wearing two blue ribbons in her hair, and she is wearing a blue dress. There is a brown dog pulling at the girl's dress. Behind the little girl are two orange, concentric arcs depicting the sun. Light yellow, yellow and white rays are emanating from the sun. Beneath the word 'Coppertone' are the words 'kids Tear Free'. In the word 'kids', the letter 'k' is blue, the letter 'i' is light blue, the letter 'd' is green and the letter 's' is blue. The letters in 'Tear Free' are blue. White, green and light green rays are emanating downward from beneath 'kids Tear Free'. Beneath these rays is a silver banner with a blue circle positioned to the right. Inside the circle are two white arcs. One is placed on the top and the other on the bottom. Outside and on the lower right of the cirlce are two white concentric arcs. The banner and circle are placed on a green background. Beneath the banner and circle is a little boy standing on a blue body board. The boy has brown hair, beige skin and he is wearing orange swim trunks. Emanating from the body board are waves and water droplets that are white, green and light blue. The container and its cap indicate placement of the mark on the goods and do not form part of the trademark itself.
